Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 14 and 27-29 are rejected under 35 U.S.C. 102(b) as being anticipated by Sharp et al.

The gyroscopes are sealingly positioned within housing 66. Centralizers 121 are positioned between the drill collar and the housing. As to claim 14, the centralizers 121 support the housing 66 within the drill collar. As to claim 27, means 200 are a compression means capable of providing axial support. Means 177 and 278 provide end caps on either side of the instrument package. As to claim 28, the gyroscopes are loaded into the housing.
